

By Harry Wang, Senior Director of Research, and Kristen Hanich, Researcher

<p>Synopsis</p> <p>This <i>Consumerism of Healthcare Connected Health Tracker</i> examines best provider practices in implementing technology solutions in four operational areas: transitional care management, chronic care management/ population health management, caregiver engagement, and data integration and analytics. For each category, this tracker highlights market and technology trends in the care provider market and uses relevant case studies to illustrate how care providers accomplish their business goals and outcomes.</p>	<p style="text-align: center;">Device Adoption Comparison</p> <p style="text-align: center;">Connected Health Device Ownership</p> <p style="text-align: right;">© Parks Associates</p>
<p>Publish Date: 1Q 17</p>	<p>“The opportunity for care providers to incorporate and leverage technology in their practice to accomplish desired outcomes is real, but each care provider must find the best approach to implement it based on their unique circumstances such as patient population attributes, payer mix, staff readiness, and existing IT infrastructure,” said Harry Wang, Senior Director of Research.</p>
